Professional Summary

A versatile developer and designer specializing in **AI-Assisted Development (Vibe Coding)** and **UI/UX Design**, backed by 2+ years of experience. Proficient in building full-stack solutions using AI-driven workflows, with a solid understanding of programming fundamentals and backend development using **Supabase**. Proven track record in leading projects, optimizing operational efficiency, and developing teams, ensuring the delivery of innovative and user-centric digital products.

AI-Assisted Development Expertise

- **Vibe Coding:** Solid experience in Vibe Coding with a strong foundation in programming fundamentals.
- **AI-Driven Workflows:** Built multiple personal projects using advanced AI-assisted development workflows.
- **Advanced AI Models:** Experienced with cutting-edge AI models: Claude Opus, Claude Sonnet, ChatGPT (latest), Google Gemini 3 Pro.

- **Tools & Editors:** Utilized specialized development tools and editors: Bolt, Trea, Antigravity, Windsurf.
- **Backend Development:** Expertise in using **Supabase** for backend services (Authentication, Database, Real-Time).

Selected Projects

- **Real-Time Chat App:** WhatsApp-inspired chat application with enhanced UI, animations, and complex interaction logic.
- **FlowArt:** Artistic content-sharing platform (iOS + Web), currently under development, featuring a live preview function.
- **Supply Management System:** A system designed for organizing suppliers, products, and financial workflows, enhancing operational efficiency.
- **Passth:** A secure password manager featuring strong encryption and weak-password alerts.
- **DoDate:** An Android application for calculating date differences.
- **Nabra App (Sign Language to Text):** A mobile application dedicated to supporting the deaf and mute community by translating sign language into written text.
- **Elderly Social Platform:** Created a user-friendly interface tailored for senior users, focusing on clear readability and simple navigation.
- **Landing Pages:** Designed and built multiple high-converting landing pages and simple websites.

Professional Experience

UI/UX Designer | Freelance / Startup Projects | 2022 – Present

- Spearheaded the design and development of over 30 diverse UI/UX projects, including social platforms, management systems, and smart applications.
- Pioneered the design of the “Nabra” sign language-to-text application, significantly enhancing accessibility for individuals with disabilities.

- Engineered a user-friendly social media platform for seniors, optimizing for ease of use and simplicity.
- Mastered **Figma** and **Adobe XD** to produce high-quality, interactive designs and prototypes.

Lead Mobile Maintenance Specialist | Smartphone Academy – Minya | 05/2021 – 12/2022

- Operated as the sole specialist, managing all mobile maintenance responsibilities and ensuring operational continuity.
- Developed and executed advanced training plans, integrating the latest maintenance technologies.

Branch Manager | Smartphone Academy – Minya | 09/2020 – 05/2021

- Directed branch operations, supervising daily tasks and team assignments.
- Guided a small team to exceed training and operational targets.
- Optimized training program efficiency to align with market demands.

Mobile Maintenance Instructor | Smartphone Academy – Minya | 01/2020 – 09/2020

- Instructed 3 weekly groups (10 students/group) in mobile maintenance, covering theoretical and practical methods.
- Facilitated the graduation of over 24 groups, contributing to improved student placement rates.

Technical Skills

- **AI Development:** Vibe Coding, Claude Opus, Claude Sonnet, ChatGPT (latest), Google Gemini 3 Pro, Bolt, Trea, Antigravity, Windsurf.
- **Backend & Database:** Supabase (Auth, Database, Real-Time).
- **UI/UX Design:** Figma, Adobe XD, Sketch, InVision, Interactive Prototyping, User Flows, Wireframes.
- **Programming:** HTML, CSS, JavaScript (Beginner level).
- **Tools:** Trello, Notion, Jira, Asana, Microsoft Office Suite, Canva, Miro.

- **Research & Testing:** Usability Testing, A/B Testing, Personas.
